

### VOLUME OF TRAVEL TO EUROPE BY U.S. CITIZENS

### FINAL 2011

From monthly air-travel reports issued by the U.S. Dept. of Commerce, Office of Travel and Tourism Industries. Totals are for U.S. citizens departing U.S. gateways on flights with first arrival in Europe (including the Russian federation).

Since July 2010, data has been collected from airlines before departure by the Dept. of Homeland Security via the new Advance Passenger Information System (APIS). This more accurate system has revealed that U.S.-citizen departures were previously overcounted, by as much as 20 percent per month. Thus the significant minus figures reported for July 2010 onward (in black, below) do not reflect actual decreases of that magnitude. Indeed, independent data indicates that traffic increased through much of that period.

\* Final totals through 2010 adjusted upward by the U.S. Department of Commerce, Travel and Tourism Industries, in annual report as late filings were received from carriers. Beginning with 2011, December total is final.

\*\* Because U.S. departures were actually overcounted prior to July 2010 (see note above), we believe the actual 2011 percent result was + 3 % or better.
